GTA SECURE™

SIMPLE AND SECURE CONTROL

Stops unauthorised use of powered access equipment with secure Access Control

PUTTING YOU IN CONTROL OF YOUR HIRE EQUIPMENT

FROM JUST
£8
+ VAT per week

The perfect solution on sites where a number of contractors working in close proximity could give rise to 'nuisance borrowing'.

GTA Secure™ provides tracking, geo-fencing and access control for the machines you have on hire. It allows you to see real-time machine location and status remotely.

- Improves safety by only allowing access to individuals that are trained and authorised.
- Real time monitoring and reporting of location and status including start time, finish time and usage.

MACHINE TRACKING

GEO-FENCING BY AREA AND TIME

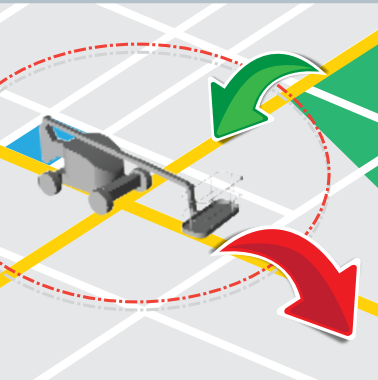

ACCESS CONTROL

REAL-TIME MONITORING

CONTROLLED ACCESS

Access to powered access platforms can be controlled with the use of a PIN number or an RFID card such as an IPAF PAL or GTA Secure card. Enabling and disabling of users is quick and easy and done in real-time.

A VIRTUAL FENCE AROUND YOUR JOBSITE

- Geo-Fencing creates an invisible boundary where the machine can be used and automatically stops and notifies you should it leave the pre-defined area.
- Set accepted and no go zones and receive immediate alerts should the machine enter or leave those areas

SAFETY EQUIPMENT

DON'T GAMBLE WITH YOUR SAFETY

Always wear the correct Personal Protective Equipment when working at height

THE RIGHT SAFETY GEAR FOR WORKING AT HEIGHT

Having the correct safety gear and adequate training when working at height is critical to ensuring the safety of operators.

It is recommended for boom type MEWPs that a double point full body harness to EN361 and an adjustable lanyard is used to provide protection from being catapulted from the access platform.

From
£75
+VAT

DOUBLE POINT HARNESSSES

Double point harness with front and rear D ring attachment points, Easy-Click Quick connect buckles and high comfort webbing.

Only
£25
+VAT

ADJUSTABLE LANYARDS

Remove the risk of falls from an elevated work platform with a shortened lanyard.

ANNUAL HARNESS INSPECTIONS AND TRAINING

IPAF recommend that all harnesses are inspected by a competent trained inspector on an annual basis to remain compliant. GTAccess can carry out these inspections for a small cost.

We also hold half day IPAF Harness Safety training courses at all our training centres.

MULTI-IMPACT HELMETS

An industrial quality helmet for work at height and general site safety. The Multi Pro helmet is built to last and has provision for all standard accessories

From
£45
+VAT

FUEL BOX

THE SMARTER WAY TO REFUEL ON-SITE

Quicker and easier than a trip to the forecourt

A FAST AND SIMPLE ON-SITE REFUELLING SOLUTION

POA

+ 20% VAT per box

FUEL BOX

Fuel Boxes are easy to store on site or in a vehicle and provide a much quicker and simpler way to refuel than trips to the forecourt

20 Litres of red diesel in a UN approved 'bag-in-box' system. Easy to handle and store on site and much quicker than a trip to the forecourt. The perfect solution for short term plant hire.

- The ideal solution for short term Plant hire.
- Fuel Boxes are easy to store on-site or in a vehicle.
- We'll deliver them for free with your hired in powered access equipment
- Each UN approved 'bag-in-box' contains 20 litres of White Diesel suitable for all our Diesel MEWP's.
- Each Fuel Box is supplied with a Glug free pouring system that prevents unnecessary spillages.

The benefits of HVO Fuel

- 100% hydrocarbon, sustainable, renewable and biodegradable
- Up to 90% reduction in greenhouse gas emissions
- Clean burning, reducing particulate build-up and engine
- Exceptional cold-weather performance
- Environmentally friendly 100% recycled HDPE
- Fossil-free & sulphure free

Toughscrew on lid with anti-glug system

Outer box made from 5mm corrugated cardboard with zero risk of contamination

Weatherproof outer plastic shrink wrap (not pictured)

Carry handles on sides and the bottom

UN approved 'Bag-in-Box' solution with a heavy duty, heat sealed plastic bag. Drop tested from 1.2M

Hot melt adhesive on top

TRAINING

LEARN FROM THE ACCESS SPECIALISTS

We specialise in training and safety courses for those working at height

A DEDICATED TRAINING TEAM WHO ARE PASSIONATE ABOUT WORKPLACE HEALTH & SAFETY

With over 40 years of experience with access equipment, we are able to offer a huge range of approved IPAF, PASMA, and Workplace Health & Safety related training courses.

Our training courses can be undertaken at any of our 8 training centres, your offices, or on site (under certain conditions). We also offer evening and weekend courses. Our IPAF operator courses offer the option of E-learning, giving the option to complete the theory section of the course on-line, saving time spent at our training centres.

For course availability or to book visit gtaccess.co.uk or if you would prefer to speak to someone in person please call our training department on 01527 908370

We run a full range of approved IPAF courses including, Operator training, Harness Safety training, MEWP's for Managers and IPAF Demonstrator and Load/Unload.

We run a full range of approved PASMA courses including; Low Level Towers and Towers for Users.

We also offer a range of Workplace Health and Safety training courses including; Emergency First Aid at Work and Abrasive wheels.

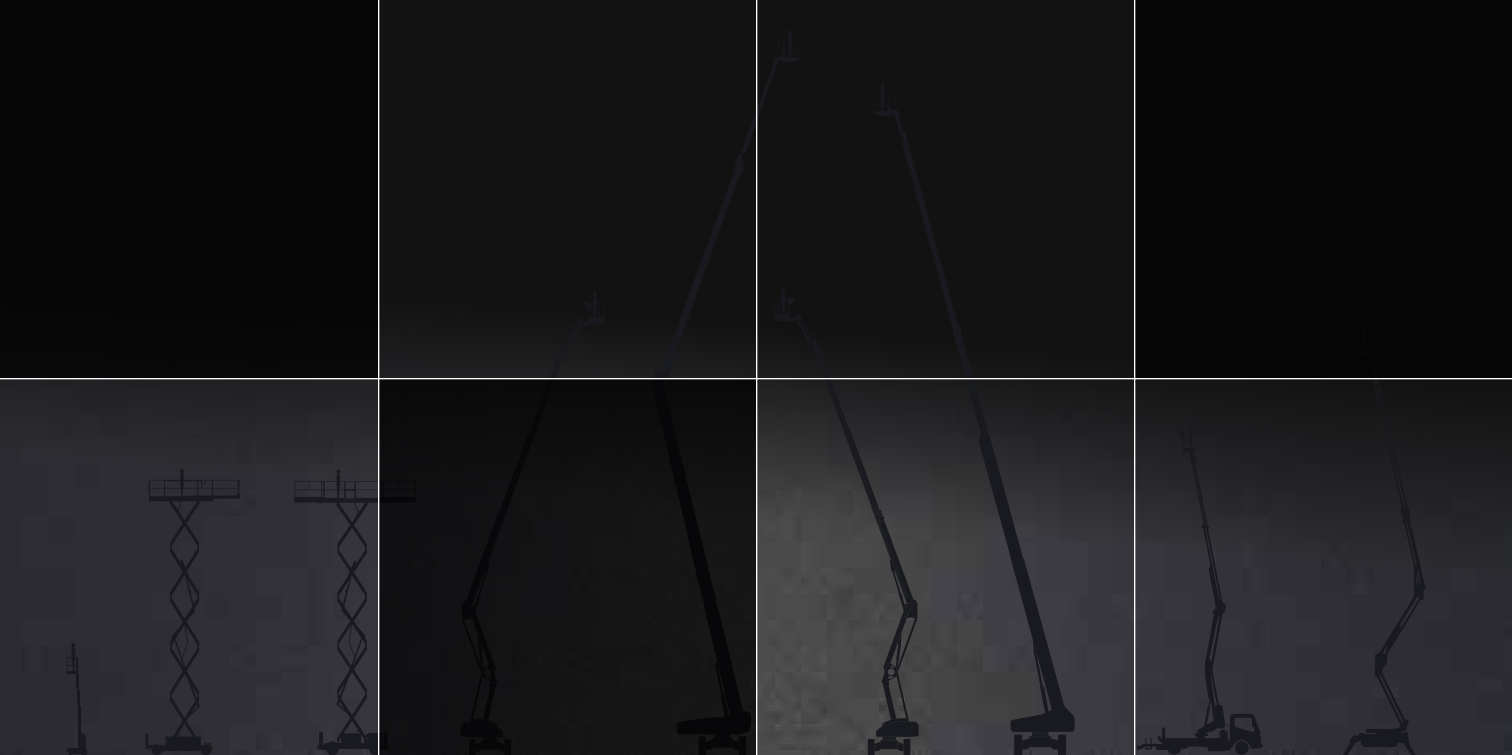

E-LEARNING

We offer some training courses as online e-learning which can save you valuable time by allowing you to complete a course at a time that suits you in the comfort of your own office/home.

10 TRAINING CENTRES

Courses are run daily at our 10 accredited training centres in:

- Brentwood
- Bromsgrove
- Bridgend
- Gloucester
- Hailsham
- Hereford
- Luton
- Peterborough
- Shrewsbury
- Stoke on Trent
