 Wind rated for outdoor use

NON MARKING TYRES
 Prevents marking to finished floors

IPAF 3b
 Requires IPAF category 3b

The Sigma 16 electric articulating booms, with their high up & over clearance and outreach, overcome all obstacles to reach remote work areas. The jib with horizontal rotation offers a precise and safe approach without repositioning the machine. This additional movement flexibility enables operators to save precious time with manoeuvre and access areas that are not accessible with a regular jib.
